Architecturally Fascinating

This is the very first time this architecturally fascinating home has ever been offered for sale since it was constructed. The early 70's retro design works so well and the detail in the design, joinery and construction was no doubt way ahead of it's time. The layout has been designed to tie in the living and dining spaces for entertaining which could be described as open plan living. The major benefit this design achieves is comfortable living for 1 or more with the versatility of being equally comfortable with larger groups of people around family gatherings or hosting guests. In addition to the amazing design is the prime location. The home is centrally located in Camden when 'over the back fence' is Macarthur Park just one step away to open play areas for which the park is so well known. The front balcony also enjoys uninterrupted views across rural Camden with spectacular sunsets. Don't miss your opportunity to see this fascinating home.

Price: AUCTION
