Location, lifestyle, luxury and views

This property is literally new, with the 'Three72' building having only been completed in 2019. The owners upgraded several features of the apartment during construction and it stands as a bespoke property which will be the envy of your family and friends. Positioned perfectly on the top-floor in the south-eastern corner of the building, you will enjoy views east to the Broadwater, Wave Break Island and beyond, south to Surfers Paradise and west to the Hinterland. The developer of 'Three72' has designed the entire building to encapsulate lifestyle and to make the most of the fantastic location.
