A FAMILY HOME WITH THE WORKS

Every now and then you can find THE HOUSE that offers everything. This is one of those! Not only is it beautiful, both in its design and presentation, it has loads of extras including a stunning inground pool, a workshop, three living areas including lounge, family/meals area and a separate rumpus. The 5kw solar power system goes a long way to helping with the electricity bill. All this plus you can even park a trailer down the side of the house.

The backyard is very private and combined with the location (directly opposite a park) it actually feels like you are not really in the burbs!
