UNIQUE HOME WITH HAWKESBURY RIVER VIEWS

Im sure you will agree the uniqueness and quality of this home is evident even in the photos of this property. The home is built from genuine Canadian Cedar imported specifically for this project. The design originally engineered for the Canadian Snow fields is grand and strong, the 18ft ceiling and full height double glazed windows work perfectly in this location to capture the amazing view of the Hawkesbury River, the nearby Wisemans Ferry Golf Course and the escarpment of the national park beyond.
