Whisper Quiet Location - Commence Bidding From \$500,000

The 180 degree panoramic views are one of the major attractions of this property spread across 2 1/2 acres and within walking distance of the town centre. It has a natural water supply and trees and gardens are fully irrigated. The house has three bedrooms and a separate rumpus/office and double garage. Freshly painted interiors, polished floorboards and renovated kitchen and bathroom are major selling points. The agent says the occupants enjoy spectacular sunsets from the huge rear deck with views as far as the eye can see and that this is a "once in a lifetime" opportunity to acquire prime acreage so close to Camden's Main Street.
