### The Perfect Parcel!

If you are looking for value for money this is the property for you, imagine a roomy four bedroom family home set on 1284sqm block. Add an in ground pool, shady covered outdoor area, landscaped gardens and double garage and you will begin to understand what is on offer here. It is refreshing to be able to present such a large home at a modest price. A 'quarter acre' block, great outdoor entertaining, an in-ground pool and a backyard big enough to play cricket in. Let me also say, you have easy driving access into the backyard too - either through the garage or beside the garage through the gates. It's perfect for boats or vans.

**Price:** \$329,000
