

6 Yarravel Street SOUTH KEMPSEY, NSW

Fondue and Flares!

I love this house! The current owner has preserved this beauty, with the original 'retro' kitchen in pristine condition, yet a modern, neutral colour scheme throughout, giving a fresh new feel. Tiled roof & rolled hardwood weatherboards on the exterior, this house is as tough as nails! Security screens and an alarm for added security.

3 comfortable bedrooms with built in robes, all carpeted & main with ceiling fan. 2 bathrooms, the second in the large laundry for convenience. The living spaces of the open lounge and dining offer built in slow combustion wood heater for snuggling up in the cooler months and air conditioning blowing through from the dining area, to keep things cool in the summer.

The dining room is also complimented by an open breakfast bar/servery from the kitchen. I'm reminiscing - retro parties with fondue & flares!

Something else that gives flare, is the abundance of windows, giving great natural light in all areas. All windows with Venetian blinds and pelmets to keep with the pristine finishing touches.

To the outdoors, a carport with undercover front door entry, and ...

Price: \$189,000
