### Family-Friendly Design with Multiple Living Zones and Outdoor Entertaining

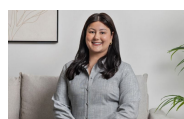

From the moment you step inside, the sense of scale is undeniable. Sunlight filters through expansive windows, highlighting soaring high ceilings in the loungeroom and the generous flow between multiple living spaces. A versatile front bedroom sets the tone - perfect for guests, a quiet study, or a private retreat - while the main living zones create an inviting centrepiece for family life. The kitchen is both elegant and functional, featuring quality appliances, a walk-in pantry, and a seamless connection to the dining and family areas. Every space has been thoughtfully designed to balance comfort, style, and practicality.
