**SOLD 'Thanks To Our No Sale No Charge'**

**Price:** \$475,000

**Living The Tropics At Its Best**

All you need from a house in the tropics is open space, high ceiling, cross ventilation, a powerful solar system to save on the power bill, and easy access to a resort-style pool from every room. This three large guest rooms house has been renovated 2 years ago with deep and smart thoughts and equipped with top features, so that it feels like it is even bigger than a four bedrooms property.
