

58 The Mainbrace YAMBA, NSW

THE PICK OF THE LITTER!

Price: $850,000

Here is something truly special to hit the waterfront market in Yamba. This unique parcel of land is surely one that you can build the home of your dreams, catering for the mad-keen yachties or the big boat owner wanting deep water frontage and direct ocean access. The original developer kept this special block for himself when he sold off all the other lots many years ago, so obviously this is the pick of the litter. With 1000sqm of pure house block and another 1000sqm of water that you own (on title) you could almost build your own marina out the front! Build the home of your dreams on this slice of paradise and enjoy the amazing panoramic views across the bay and out to the mighty Clarence River. Don't miss this wonderful opportunity to make dreams become a reality.
